

Jacksonville Probate Attorney & Estate Planning Law Firm

As a Probate and Estate Planning attorney, I help clients with estate administration, and the preparation of advance directives. Advance directives are Powers of Attorney, Wills and Trusts, Living Wills, Preneed Guardian Declarations and Health Care Surrogate Declarations.

As a Real Estate attorney, I provide representation in most real estate matters, including commercial and residential purchase and sales, including preparation of contracts, closings, and issuance of title insurance. I also provide representation in quiet title actions, foreclosures, evictions, and ejections.

I also represent persons and survivors in personal injury, negligence and wrongful death cases.

I provide assistance and guidance to other personal injury attorneys in the preparation of Special Needs Trusts and structured settlements for their clients (including minor children) that do not wish to have their government benefits interrupted by a personal injury recovery.
